PROFESSIONAL SUMMARY

Highly motivated B.Tech student in Artificial Intelligence and Data Science with a strong interest in AI, machine learning, and data analytics. Proven ability to develop innovative solutions and continuously improve skills, with a strong passion for exploring new technologies and solving real-world problems.

SKILLS

Python · Java · Javascript · R · Html · Css · Flask · Machine Learning · Data Science · Nlp · Tensorflow · Scikit-Learn · Pandas · Numpy · Matplotlib · Sql · MongoDB · Git · Github · Excel

EXPERIENCE

- Intern (Ongoing) | IBM – Naan Mudhalvan | Full Stack Development
- Developed and implemented full-stack web development projects, gaining hands-on experience in front-end and back-end development
- Built and deployed multiple web applications, enhancing skills in Agile development and version control
- Intern | YBI Foundation
- Worked on practical projects related to data analysis and machine learning, analyzing real-world datasets and building predictive models
- Implemented data visualization techniques, presenting insights and recommendations to stakeholders

PROJECTS

- Assista – AI Assistant for Visually Impaired
- Designed and developed a voice-controlled assistant to help visually impaired users perform daily tasks independently
- Implemented speech recognition, NLP, and camera capture to enhance accessibility and usability
- IoT-Based Onion Storage Monitoring System
- Developed an IoT system to monitor temperature, humidity, and gas levels in storage environments
- Automated ventilation control and enabled real-time monitoring, reducing spoilage by 25%

EDUCATION

- B.Tech in Artificial Intelligence and Data Science (Ongoing)

ACHIEVEMENTS & ACTIVITIES

- Exhibited IoT-Based Smart Onion Storage Project at VISAI 2025 (15th International Project Competition & Exhibition)
- Presented an AI-based Employee Performance & Productivity Analysis solution at IBM Naan Mudhalvan Final Hackathon
